TECHNICAL SKILLS

Software & Web Dev

PHP, Python, Java, C++, JavaScript, HTML5, CSS3, REST APIs, OOP

Databases

MySQL, Relational DB Design, SQL Optimization, CRUD Operations

Systems & Administration

Windows Server, Linux Fundamentals, IT Asset Management, Active Directory, User Access

IT Infrastructure & Support

Hardware Maintenance, Cybersecurity Policies, Data Backup, Troubleshooting

Methodologies & Tools

Git, Educational Tech Integration, Agile Basics, Technical Documentation

LANGUAGES

English: Professional Proficiency

Urdu: Native / Bilingual

Swedish (Svenska): Beginner

FARRUKH NISAR

COMPUTER SCIENCE PROFESSIONAL & WEB DEVELOPER

Results-driven Computer Science Professional, Educator, and Web Developer with over a decade of experience across systems administration, full-stack web development, and IT infrastructure management. Skilled at bridging the gap between technical infrastructure management, practical application development, and educational technology integration.

WORK EXPERIENCE

EST CS / IT Lab Manager & Computer Science Educator

07/2016 – 07/2026

School Education Department (SED), Punjab, Pakistan

- Designed & delivered computer science curricula covering programming (Python/Java/C++), data structures, and algorithms.
- Maintained, repaired, and upgraded computer lab hardware, software packages, and network infrastructure, ensuring high system availability.
- Enforced cybersecurity best practices, user access controls, data backup routines, and anti-malware protections.
- Guided students in academic projects, coding competitions, and practical hands-on technology fairs.
- Integrated Learning Management Systems (LMS) and educational technologies to support blended learning environments.

PHP Web Developer

01/2022 – 03/2026

Jinnah Software

- Developed and maintained dynamic, responsive websites and web applications using HTML, CSS, PHP, MySQL, and JavaScript.
- Designed, normalized, and managed relational MySQL databases to optimize application functionality and response time.
- Debugged, refactored, and optimized web applications for maximum security, performance, and cross-browser compatibility.
- Collaborated with teams to implement tailored web solutions and provided ongoing maintenance and technical support.

EDUCATION

MS in Computer Science (MS CS)

2025

Muslim Youth University, Islamabad

BS in Information Technology (BS IT)

2011 – 2015

University of Gujrat, Gujrat, Pakistan

Master in Education (M.Ed.)

2021

Allama Iqbal Open University (AIOU), Islamabad

KEY PROJECTS

Digital Pedagogy & Inclusive E-Learning Project (M.Ed. Capstone)

Evaluated multimedia & computer-assisted instruction strategies to enhance secondary education digital literacy and engagement.

Automated IT Infrastructure & Asset Tracker

Built a custom PHP/MySQL internal tool to log hardware assets, track software licenses, and streamline IT support workflows.

E-Learning Management System (ELS)

Full-stack web application with user authentication, course management, student registration, and CRUD database integration.

Student Management System

Web-based platform utilizing PHP, MySQL, and JavaScript to securely manage student profiles, attendance, and academic records.
